WHY CHOOSE GLOWBOLT

HOW IT WORKS

A WORD FROM OUR FOUNDER

CONTACT US

Your Premium Commercial Fit-Out Company

Electrical expertise is where we started. Complete commercial environments are what we deliver today.

Glowbolt delivers premium commercial fit-outs from initial concept through to final handover. Bringing project management, specialist trades and technical expertise together under one roof, we provide a complete turnkey service with one trusted team responsible for every detail.

Our foundation in commercial electrical work gives us a deeper understanding of what makes a space perform. From power, all the way through to placing your final desk, every element is carefully coordinated to work seamlessly together.

Whether we're transforming an office, retail environment, hospitality venue, warehouse or industrial facility, we manage the entire process with clear communication, precise execution and uncompromising attention to detail.

The result is a space that looks exceptional, functions effortlessly and is ready for business.

One partner. Complete delivery. No unnecessary friction.

Electrical Services

At Glowbolt, we deliver professional, fully compliant, and future-ready electrical solutions for commercial and industrial clients. Whether you manage an office, warehouse, retail unit, or healthcare facility, our electrical services are designed to keep your operations running smoothly, safely, and efficiently.

FULL FIT-OUT & REFURBISHMENT

ENERGY EFFICIENT UPGRADES

TESTING, INSPECTION & COMPLIANCE

UPS BACKUP SYSTEMS

ELECTRICAL FAULT FINDING & REPAIRS

What clients say about us

"Glowbolt handled the full electrical fit-out of our new office with zero disruption. Every detail was thought through, and the team worked cleanly, efficiently, and on schedule. We couldn't fault them."

Site Operations Lead, Logistics Company

Full Fit-Out & Refurbishment

From new premises to major refurbishments, we plan and deliver seamless installations, including lighting, power distribution, data cabling, and smart integrations. We keep projects on time, on budget, and disruption-free.

Energy Efficient Upgrades

We help businesses reduce their energy bills and carbon footprint with LED lighting, smart controls, and monitoring systems. Our energy-efficient solutions are designed to save money and support sustainability.

Testing, Inspection & Compliance

We carry out thorough inspections, testing, and fault diagnostics using advanced equipment, including thermographic cameras, to keep your systems safe, certified, and compliant. Clear reports and practical recommendations are always included.

UPS Backup Systems

Avoid costly downtime with uninterrupted power. We design and install tailored UPS systems that keep your operations running and your equipment protected.

Electrical Fault Finding & Repairs

We can provide your business with outstanding testing and inspection services, able to quickly identify any problem areas and suggest solutions.

Security Systems

Robust security is about more than protecting property - it's about safeguarding the people, assets, and operations that keep business moving. We design, install, and maintain professional-grade systems tailored to the needs of commercial environments.

From access control and CCTV networks to intruder alarms and perimeter detection, our solutions combine reliability, efficiency, and compliance. Security lighting helps deter threats, while emergency support and repairs ensure rapid restoration should the unexpected occur.

Whether protecting offices, retail outlets, warehouses, healthcare facilities, or multi-site operations, our engineers deliver precision, discretion, and peace of mind.

[ACCESS CONTROL](#)

[INTRUDER ALARMS](#)

[SECURITY LIGHTING](#)

[PERIMETER DETECTION](#)

[EMERGENCY SUPPORT & REPAIRS](#)

Access Control

Control who enters your premises with smart systems like keypads, fobs, biometrics, and mobile-managed access, fully integrated with your network and fire systems if needed.

CCTV Systems

High-definition /4k CCTV with remote monitoring, cloud storage, and integration with lighting and intruder alerts to deter threats and capture incidents.

Intruder Alarms

Integrated alarm systems with loud alerts and app-based notifications. Manage zones, arm/disarm remotely, and stay protected wherever you are.

Security Lighting

AI based LED lighting linked to CCTV and alarms for enhanced visibility and deterrence.

Perimeter Detection

Beam detectors and alert systems create a virtual boundary, ideal for warehouses, yards, and industrial spaces.

Emergency Support

24/7 emergency repairs and callouts, so your security is never offline when you need it most.

Audio Visual & Smart Solutions

Glowbolt designs and delivers intelligent, scalable audio visual and automation solutions that enhance the way businesses operate on a daily basis. Whether you're creating a collaborative workspace or upgrading existing facilities, our expert team manages every aspect of the project.

Video Conferencing Systems

Transform your boardrooms into fully equipped, conference-ready environments with seamlessly integrated audio and visual technology. We ensure clear communication, reliable performance, and a professional experience for both in-person and remote participants.

Network Services

From high-performance fibre optics to advanced wireless connectivity, our network systems are meticulously engineered to deliver unmatched speed, robust security, and seamless scalability.

We design and deploy resilient commercial network infrastructure tailored to the unique needs of each business, with solutions which are built to keep your operations running smoothly and efficiently.

With a focus on reliability and future-proof technology, we ensure your business remains connected, competitive, and ready to grow in a rapidly evolving digital landscape.

Turnkey Solutions

Complete Project Delivery, From Concept to Completion.

Glowbolt manages projects from the ground up planning, coordinating, and delivering every detail through one trusted partner. Our turnkey model means one contract, one team, and zero friction.

Comprehensive Turnkey Services

We act as your single point of contact from the first brief to the final sign-off:

- Site consultation & assessments
- Budgeting & transparent quoting
- Architectural planning & coordination
- CGI visualisation
- Labour scheduling & trades management
- Full construction, installation & fit-out
- Project management & H&S oversight
- Final handover & client walkthrough

Commercial & Industrial Focus

We deliver scalable solutions across a range of sectors, including:

- Warehouses
- Logistics facilities
- Office refurbishments
- New office fit-outs
- Retail environments
- Hospitality venues
- Light industrial builds & upgrades

Case Study: The One Bar, London

Nightclub & Cocktail bar refurbishment

We designed and implemented a complete audio visual, lighting, and control system for a premier London nightclub, transforming the venue into a high-impact, future-ready entertainment space.

This comprehensive upgrade included immersive sound systems, dynamic lighting setups, and seamless control integration to enhance both performance and guest experience.

Every element was thoughtfully engineered to support the venue's energy, flow, and function balancing cutting-edge technology with sleek, robust design. From initial concept to final commissioning, we ensured smooth coordination and precision delivery at every stage.

Key Wins:

- Seamless Control & Operational Efficiency
- Immersive Multi-Sensory Experience
- Future-Proof, Scalable Design
- Fully project managed end to end by Glowbolt

CGI & Visualisation Services

Bring Your Vision to Life, Before It's Built. At Glowbolt, our high-end CGI and visualisation services help clients plan, pitch, and present with clarity and impact. Whether you're preparing to market a property, win stakeholder approval, or refine a complex build, we create visuals that speak volumes.

CGI Stills

Showcase your projects with hyperrealistic CGI stills that capture every detail with precision perfect for architectural concepts, interior design, product development, and marketing.

Animated CGI

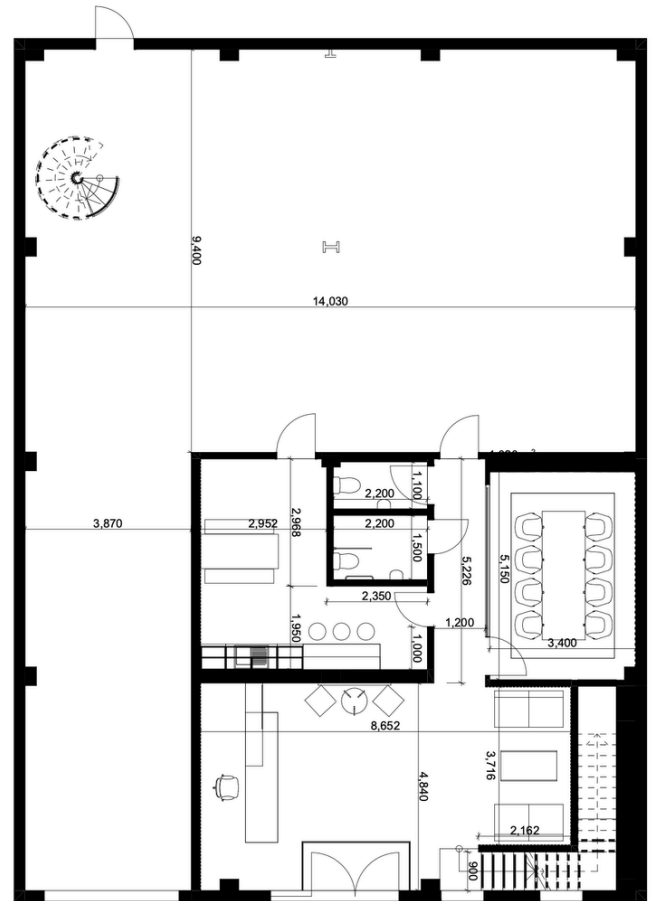

Turn static ideas into dynamic visuals. From architectural walkthroughs to technical fly-throughs, our animated CGI brings motion and context to your concepts.

3D & 2D Floorplans

Help clients and stakeholders understand layouts and flow with clean, easy-to-read floorplans. Perfect for marketing brochures, property portals, or site planning. Virtual Tours Offer an immersive 360° experience. Our virtual tours let viewers explore your space before it's built, from anywhere, on any device.

Concept 3D Designs

When you need to visualise before you build, our concept modelling services give you the creative edge. Great for early-stage planning, tenders, or design team alignment.

Why Choose Glowbolt

When it comes to commercial spaces, performance is everything and that's exactly what we deliver. From warehouses and offices to retail and hospitality, Glowbolt combines sharp technical expertise with seamless delivery to keep your operations moving and your standards high.

50+

24/7 SUPPORT

One point of contact. Fast communication. Expert advice before, during, and after completion.

ACCREDITED

We meet the industry's highest standards and prove it on every job.

Accreditations we currently hold

How it Works

Discovery & Consultation

We begin with a detailed discussion or site visit to understand your home and requirements

Bespoke Proposal

You receive a tailored quote with timelines, specification, and clear recommendations.

Project Kickoff

Once approved, we schedule works, assign a project lead, and communicate every step.

Delivery & Coordination

Our trusted engineers and trades deliver clean, careful work with minimal disruption.

Final Handover

We walk you through every system, tidy up, and provide certification or documentation.

Ongoing Support

From planned maintenance to system tweaks, we're here long after the job is done.

THE GLOWBOLT STANDARD

PREMIUM COMMERCIAL FIT-OUTS, DELIVERED NATIONWIDE

"Glowbolt was founded with a clear ambition: to raise the standard of project delivery within the commercial sector.

Today, we bring together specialist expertise, proven project management and a trusted nationwide network to deliver complete commercial environments. From initial planning and technical design through to construction, installation and final commissioning, every stage is managed with precision and accountability.

Our electrical expertise remains an important part of who we are, but our capabilities now extend far beyond it. We provide clients with one experienced partner capable of coordinating complex projects, managing multiple disciplines and delivering exceptional results at scale.

As we continue to grow, our focus remains unchanged: exacting standards, clear communication and spaces that perform as impressively as they look.

That is the standard our clients expect from Glowbolt and the standard we bring to every project."
